

The Antioch School's

# Virtual Open House

Seeking Curious Kids

1:00-2:00 pm Sunday  
February 21, 2021  
*via Zoom*

## Growing Up Is a Journey

When parents bring a child into their family, it is a monumental event – one filled with hope, aspirations and maybe even some trepidation. How do you teach your child to live a joyful life? How do you prepare them to overcome the challenges that life brings? How do children create their own IDENTITIES and develop critical thinking skills? This is where the Antioch School excels.

## Discovering Together

Children at the Antioch School are met where they are. They walk their own learning path, as fast and as far as it may go, yet there are always encouraging friends and teachers nearby. Each person is trusted as a learner and valued as an important voice in the community, where we discover new roads together.

## A Timeless Approach

The grade-free environment of The Antioch School has cultivated a love of learning for 100 years. The events of the past year have only reinforced the relevance of our democratic, nature-based, child-focused and screen-free approach to learning. Through example and direct experience, children learn self-discipline, self-direction, value setting and the relationship between choice and consequence.

## You are invited to join us

Child-centered programs are available for Nursery through Elementary. We invite you to come with us on this journey of discovery. The Virtual Open House will consist of a virtual tour of the facility followed by breakout sessions for each classroom/teacher.

**If you are interested in attending, please email Nathan Summers, School Manager, at [nathan@antiochschool.org](mailto:nathan@antiochschool.org).**
